Profile

I'm a positive, open-minded individual who thrives on teamwork. As a certified Full Stack Developer, I've been actively involved in multiple projects over the past year. My expertise encompasses a range of technologies.

These projects were collaborative efforts, where I worked closely with teams employing agile methodologies.

Experience

Full Stack Developer - Box Delivery, Plataforma5 01/2024 – 03/2024
A mobile platform, powered by React technology, aimed at courier services, allowing a company to geolocate couriers and assign them daily packages. Remote

Front End Dev. - Mi Turno Web, Plataforma5 11/2023 – 11/2023
Web app for scheduling appointments across multiple company branches. Scrum methodology with weekly sprints and daily meetings. Remote

Education

Full Stack Developer, Plataforma5  09/2023 – 12/2023
JavaScript boot camp with more than 1000 hours of coursework, where I engaged in pair programming and gained hands-on experience with Scrum and Trello for efficient management of project tasks. Remote

Responsive Web Design, FreeCodeCamp  2022
Learn HTML and CSS for visually appealing, responsive web design. Canada
Discover Flexbox and CSS Grid for versatile layouts.
